CAREER PROFILE

Full Stack Web & Mobile Developer with an ownership-driven, “make it happen” mindset. Experienced in end-to-end software development, AI-assisted engineering, and building AI-powered applications. Adaptable, proactive, and focused on turning ideas into scalable, reliable solutions.

EDUCATION

Technological University of the Philippines | Manila, Philippines 2021 – 2022
Bachelor of Science in Computer Engineering
Relevant Coursework: Software Engineering | Artificial Intelligence/Machine Learning | System Design | Database Systems

Technical Skills: TypeScript | Python | HTML | CSS | React | Next.js | Node.js | Express.js | FastAPI | SvelteKit | React Native | MongoDB | Supabase | PostgreSQL | pgAdmin | Prisma | SQLAlchemy | Redis | WordPress | AWS (EC2, S3) | Serverless Architecture | CI/CD (GitHub Actions) | Docker

WORK EXPERIENCE

Prostrive | Netherlands
Full Stack Developer May 2026 – November 2026
- Developed mobile and web applications using React Native Expo and SvelteKit
- Managed deployments through Expo and Vercel
- Published apps to the Google Play Console and Apple App Store

Seven365 | Singapore
Full Stack Developer April 2025 – May 2026
- Integrated and maintained Entry Pass services using SOAP APIs for authentication, access management, and system updates
- Developed cross-platform Android and iOS apps optimized for low-end devices and efficient performance

Nexacore Innovations FZCO | Austria
Lead Developer Aug 2023 – Feb 2025
- Led a development team, facilitated Agile/Scrum ceremonies, and ensured timely sprint delivery
- Developed full-stack applications using the MERN stack and managed application deployment

PROJECTS

Fivestairs — E-commerce Storefront | *SvelteKit*, *GraphQL*, *Afosto*, *iDEAL* Web
- Developed a bilingual SvelteKit storefront integrated with Afosto’s GraphQL API, implementing authentication, cart management, product customization, and iDEAL checkout
- Optimized API reliability using fallback mechanisms and pre-generated price snapshots, keeping product pages loading in under one second

TixFactory — Event Ticketing App | *React Native (Expo)*, *EventPax*, *Adyen* Web | Mobile
- Developed a cross-platform React Native (Expo) ticketing app integrated with EventPax and Adyen payments
- Implemented navigation, English/Dutch localization, responsive UI, and interactive event cards
- Fixed session-related order issues and prepared the app for release on the Apple App Store and Google Play

MovetheMovement — Education App | *React Native*, *TestFlight*, *Google Play* Web | Mobile
- Maintained and modernized a React Native education app by upgrading from 0.72 to 0.81, implementing the New Architecture and Android compatibility requirements
- Managed iOS TestFlight and Google Play Internal Testing releases and resolved installation issues on older Android devices

iService365 — Access Control Management Platform | *RSA Encryption*, *Cloudflare Tunnel* Web | Mobile
- Optimized backend performance to 500ms response times and 100 requests per second
- Secured visitor credentials using RSA encryption and enabled local service integration through Cloudflare Tunnel
- Developed cross-platform web and mobile apps with a shared codebase, supporting low-end devices

Skillura — Hiring and Training Process Application | *AI*, *SaaS*, *Stripe* Web
- Developed an AI-driven SaaS platform for hiring, assessment, onboarding, and structured learning, improving efficiency by 40–60%
- Coordinated backend services to support 100+ concurrent users with sub-second response times
- Integrated Stripe billing to automate payments and user management, reducing manual processing
